Seminar Leaders

Dr. David S. Wargowski is an associate professor in the Departments of Pediatrics and Medical Genetics at the University of Wisconsin School of Medicine and Public Health. He is currently the medical director of the Fetal Alcohol Spectrum Disorders Identification and Treatment Project and the Great Lakes FASD Regional Training Center.

Dr. Georgiana Wilton is an associate scientist in the Department of Family Medicine at the University of Wisconsin School of Medicine and Public Health. She is currently the Principal Investigator or Co-Investigator of several research and outreach projects addressing the prevention, identification, and treatment of Fetal Alcohol Spectrum Disorders (FASD).

Kristi Obmascher is a senior outreach specialist at the University of Wisconsin-Madison with joint appointments in the Departments of Professional Development and Applied Studies and Family Medicine. She developed and implemented a Fetal Alcohol Spectrum Disorders (FASD) awareness and prevention campaign in Wisconsin as part of ongoing initiatives with the Centers for Disease Control and Prevention.

International
Conference on
Disabilities

May 4-5, 2009

Fetal Alcohol Syndrome throughout the Lifespan: Strategies for Addressing the Physical, Cognitive, & Behavioral Consequences

Target Audience: Physicians, nurses and other health and allied health providers, mental health professionals, AODA treatment counselors, educators, vocational support providers, advocates and family members.

Pac Rim is a premier venue for sharing diverse perspectives, stimulating new thinking and crafting workable solutions—locally, nationally and globally.

FASD Throughout the Lifespan

Seminar Date & Time:
May 5, 2009 at 1 PM - 6 PM

*Working Toward a
Brighter Future*

May 4th-5th

**Hawai'i Convention
Center in Honolulu**

Training Goals:

By the end of the seminar, participants will be able to:

1. Identify the diagnostic criteria associated with fetal alcohol syndrome (FAS) and related conditions (fetal alcohol spectrum disorders-FASD);
2. Recognize ten key developmental implications associated with the conditions;
3. Understand the cognitive and behavioral challenges related to FAS;
4. Identify six categories of intervention strategies that address the biopsychosocial implications of FAS;
5. Describe four community and individual-level intervention strategies;
6. List key local, national, and international resources to serve individuals and families affected by FASD.

FEES:

FASD Seminar (without lunch) \$70

One day Special Rate with Lunch \$145

To register call: 808 956-7539 and ask for Charmaine or go directly to www.pacrim.hawaii.edu and click on FASD.

Download registration, and fax to (808) 956-7878.

Workshop

- 12:30 Pre-Test
- 1:00 Welcome and Introductions
- 1:15 Biomedical Foundation of Fetal Alcohol Syndrome
David Wargowski, MD
- The Effect of Prenatal Alcohol Exposure on the Developing Fetus
 - FAS Diagnostic Criteria
 - Differential Diagnoses
- 2:00 Developmental Implications throughout the Lifespan
Georgiana Wilton, PhD
- 2:45 Break
- 3:00 Intervention and Treatment Strategies
Georgiana Wilton, PhD
- 4:00 Preventing FASD
Kristi Obmascher, BS
- Community Interventions
 - Individual Interventions
 - Legal, Ethical and Policy Issues
- 5:00 Resources to Serve Individuals and Families
- 5:15 Wrap-Up and Post-Test
- 5:30 Pau Hana
- Table Discussions
Screening and Assessment
Interventions
Prevention & Education
